Product submit

Key words and questions

Prepared details and student notes

**Essential question**  
**What is today's target?**

Finalize and submit your evidence-based public health communication product. Big idea: A finished public health product integrates evidence, usability, and privacy protection.

**My notes, examples, and questions**

**Key words**  
**What vocabulary unlocks the lesson?**

- audience
- privacy
- usability
- recommendation
- evidence

**My notes, examples, and questions**

### Key words and questions

### Prepared details and student notes

**Must-know ideas**  
**What should I understand by the end?**

- Every health claim in the final product needs a citation traceable to a credible source.
- Audience fit means the message and design both work for the specific people you named.
- Privacy compliance and evidence quality are non-negotiable for a professional health product.

**My notes, examples, and questions**

**Process notes**  
**What happens during class?**

- 0-5 min: Warm-up: what is the one weakest part of your product right now?
- 5-25 min: Combine message, privacy statement, and wireframe into one document or package
- 25-45 min: Verify all health claims have citations; check audience language and reading level
- 45-60 min: Final usability and privacy check; fix any remaining issues
- 60-72 min: Confirm tracker shows Problem 5 product milestone complete
- 72-80 min: Submit product and screenshot LMS confirmation

**My notes, examples, and questions**

### Key words and questions

### Prepared details and student notes

#### Steps and evidence What do I do and turn in?

- Combine your message, privacy statement, and wireframe.
- Confirm the recommendation is supported by cited evidence.
- Check usability and audience fit one last time.
- Add citations for all health claims.
- Submit the product and confirm it in your tracker.

Evidence: Lab report - Finalized public health communication product combining the evidence-based message with citation, privacy statement, revised wireframe, and confirmed audience fit.

#### My notes, examples, and questions

#### Checks for understanding How do I know I got it?

- Your product pairs a usable design with an evidence-based recommendation.
- It is cited, privacy-checked, and submitted.

#### My notes, examples, and questions

#### Lab or safety notes What must I handle carefully?

No special lab safety notes today. Follow normal classroom and digital-work expectations.

#### My notes, examples, and questions
